

# THE LIMA TIMES-DEMOCRAT.

CABLE AND TELEGRAPH REPORT OF THE SCRIPPS-McRAE PRESS ASSOCIATION CO.

VOL. XVII. NO. 250

LIMA, OHIO, FRIDAY, AUGUST 2, 1901.

PRICE THREE CENTS.

## TEN

**Years in Prison and Heavy Fine.**

**Taking a Bribe**

**Is a Serious Offense in New York**

**And a Conviction of Having Been Guilty of That Offense.**

**Will Land the Offender in Prison Unless He Has a Pull With the Powers That Be.**

Special by wire to Times-Democrat.  
New York, Aug. 2.—Geo. Bissert, a prominent detective was convicted last night of receiving a \$500 bribe from a chamberlain. This makes him liable to 10 years imprisonment and a \$5,000 fine. This is regarded as a triumph for the reform element. Many think, however, that Bissert will escape. Richard Devery was once convicted of the same crime, but is still on the police force. Patrolman Peter M. Younger who secured important evidence that led to Bissert's conviction, lost of injuries, received in some mysterious manner last night. Police say he fell in a fit but his friends have demanded an investigation and are inclined to believe that he met with foul play. It is said that Younger is unpopular with some of the police officers by his activity in securing evidence against Bissert.

**Fiber From Magway Plant.**  
City of Mexico, Aug. 2.—Senator Prieto, a Spaniard, who invented machines used successfully for extracting the fiber of the henquin plant or sisal, in Yucatan, has just perfected a machine which promises to solve the problem of getting out the fiber of the magway plant, which yields pulque and grows in the Mexican tablelands in enormous quantities. First trials of this machine have been remarkably successful and specimens of the fiber sent to Europe are pronounced equal to the henquin, and German importers say all the fiber Mexico can produce will be taken at good prices.

**The Murillo Incident.**  
Borlin, Aug. 2.—With reference to the reported forcible removal by the Colombian authorities of the insurgent colonel, Abel Murillo, from the steamer Albatross, flying the German flag, at Cartagena, the Berlin Tageblatt, in an inspired article, says: "The matter has already been submitted to the German foreign office, which does not regard the information on the subject conclusive and awaits further reliable reports. The information already received, however, leads the foreign office to believe that the matter will be amicably settled."

**SOMETHING**  
**Wrong or They Wouldn't be Frightened.**

**Senators Cullom and Hanna to Confer With the President Relative to Legislation.**

Special by wire to Times-Democrat.  
Canton, O., Aug. 2.—Senator Cullom, of Illinois, is the guest of President McKinley today and will be joined later here by Senator Hanna. He has come to discuss legislative matters to come up in the next term of congress. He says the most important legislation will be in regard to the colonies. Says the Democrats are likely to cause trouble in regard to Cuba. Does not want to see any radical changes made in the tariff laws.

**The Weather.**  
Special by wire to Times-Democrat.  
Washington, Aug. 2.—Ohio, local rains and thunder storms tonight and probably Saturday; warmer.

**Torpedo Boat Sinks.**  
Special by wire to Times-Democrat.  
London, Aug. 2.—Torpedo boat No. 81 was sunk during naval maneuvers off Alderney. All on board were saved.

## FAMILY

**Of Seven Persons Poisoned by Toad Stools.**

Special by wire to Times-Democrat.  
Cumberland, Md., Aug. 2.—The family of Joseph Martin, in all, seven persons, of New Baltimore, Pa., ate toadstools by mistake for mushrooms yesterday. One is dead and the rest are dying.

## MILLIONAIRES

**Will Come to Phillips Aid if Necessary.**

Special by wire to Times-Democrat.  
Chicago, Aug. 2.—It is stated this morning that the firm of Cora King Phillips is entirely solvent. Several Chicago millionaires will back Phillips if he needs money.

## MEN ALL STRUCK

**And Erie's Street Car System is Tied Up.**

Special by wire to Times-Democrat.  
Erie, Pa., Aug. 2.—For joining the union several street car men were discharged this morning. On this account all the street car men in the city struck at noon, and the system is completely tied up. This is the last day of the races and an immense crowd is walking the track.

**Austrian Shoemakers Enraged.**  
Vienna, Aug. 2.—Herr Blitz, chairman of the shoemakers' guild, on the project for opening American retail shops in Austria, says the Americans can sell 50 per cent cheaper than the local makers. The excitement among the local workmen increases, and violence is promised.

**Kruger's American Tour.**  
Brussels, Aug. 2.—It is claimed that Mr. Kruger's American tour will include visits to New York, Philadelphia, Boston, Washington and Chicago. Negotiations are about to begin for his reception by President McKinley.

**Workingmen Clash.**  
Muncie, Ind., Aug. 2.—The strike at the Ontario silverware works assumed a serious phase when a desperate fight occurred between union and non-union men, and a squad of police was called to quell the riot. The union men, who are out, met homecoming workmen on the river bridge, where the fight occurred. Several men were severely injured, one man being knocked from his bicycle by a stone thrown, it is supposed, by a non-union man. The fight was participated in by more than a dozen men. Further trouble is feared if non-union men return to work, and guards will probably be placed about the works. Five arrests were made.

**Ordered to Alaska.**  
Washington, Aug. 2.—Colonel Dunwoody, acting chief signal officer, has ordered Lieutenant Mitchell and 20 men to go to Fort Egbert, Alaska, for duty on the military telegraph line.

## BOYCOTT

**Against a Newspaper Was a Failure,**

**And the London Daily Mail Won Out.**

**The War Office in London Was Forced to Capitulate and Furnish the Newspaper Official News.**

London, Aug. 2.—The contest between the war office and The Daily Mail has terminated in a victory for the paper. The war office had not only cut off The Daily Mail's South African casualty lists and other official news, but had also ordered the various news agencies not to supply The Daily Mail with any official information from the war office.

Thereupon The Daily Mail sued the news agencies under its contracts to compel them to deliver the news. The war office then held back bulletins until near the hour for the morning papers to go to press. This raised a storm of protest from the provincial papers and the war office finally capitulated and called off the boycott.

The experimental press-gagging aroused bitter criticism among all classes of papers at a time when the government was not too popular and could ill afford to aggravate popular discontent.

## BIG

**Percentage of All Products**

**Made of Iron**

**Are Controlled by the Steel Trust.**

**Consultation of the Officers of the Amalgamated**

**Is Being Held Today With Samuel Gompers to Ascertain the Attitude of the Federation Concerning the Strike.**

Special by wire to Times-Democrat.  
PITTSBURGH, Aug. 2.—THE AMALGAMATED OFFICERS ARE NOW CONSULTING WITH SAMUEL GOMPERS OF THE FEDERATION OF LABOR, PRESUMABLY TO FIND IF THE FEDERATION WILL SUSTAIN THE STEEL STRIKERS IN CONTINUING THE FIGHT AGAINST THE STEEL TRUST WHOSE MAGNITUDE IS SHOWN BY THESE FIGURES. IT MAKES 90 PER CENT OF THE COKE IN THE UNITED STATES. IT MAKES 75 PER CENT OF COARSE SIZES OF STEEL BILLETS, ETC.; 75 PER CENT OF T. RAILS, 50 PER CENT OF STEEL RAILROAD RAILS, 85 PER CENT OF PLATES AND 90 PER CENT OF WIRE. ITS PAY ROLL IS \$500,000 PER DAY. IT MAKES ALL THE SHEET STEEL AND PRACTICALLY ALL THE TIN PLATE IN THE UNITED STATES.

## GIRDER

**For Frick's Mammoth New Building**

**Fell This Morning Killing Two Men.**

**It Topped Downward from the Seventh Floor, Dragging With it the Two Unfortunate Men Handling it.**

Special by wire to Times-Democrat.  
Pittsburgh, Aug. 2.—The new Frick building, occupying an entire square on Grant street, has had two more deaths laid at its door. At 11:30 this morning a huge girder being placed in position on the seventh floor dropped downward, dragging two men with it to their deaths. They are: Wm. Wilson, of Brooklyn, N. Y.; Jesse Wilson, 32 years old of Wylie avenue.

**Transport Christened The Dix.**  
Washington, Aug. 2.—The acting secretary of war has named the big freight transport, Samoa, The Dix in honor of General John A. Dix, who issued the famous order "If any man attempts to haul down the American flag, shoot him on the spot." The Samoa is in use on the line between San Francisco and Manila.

**Hitchcock Hies Away.**  
Washington, Aug. 2.—Secretary Hitchcock left for an outing in New Brunswick and New England to cover probably a month. At Montreal former Attorney General Griggs will meet him and Secretary Root also has been asked to join the party, which will spend 10 days salmon fishing in New Brunswick.

**No Deficit For July.**  
Washington, Aug. 2.—The monthly comparative statement of government receipts and expenditures shows that receipts for July amounted to \$52,320,340 and expenditures \$52,367,590, which leaves a surplus for the month of \$12,750, as against a deficit for July, 1900, of \$4,000,000.

**New York Builder Bankrupt.**  
New York, Aug. 2.—Lorenz J. Welher, Jr., a contractor and builder, filed a petition in bankruptcy. His liabilities are placed at \$1,218,823 and his assets \$150,000 in real estate and \$16,500 in property in reversion.

## BANKERS

**In Akron Profess Ignorance of Robbers Arrest.**

Special by wire to Times-Democrat.  
Akron, Aug. 2.—Police and bankers here say they know nothing of the alleged arrest in Goshen, Indiana, of the Akron bank robbers with \$16,900 in their possession.

## LI HUNG CHANG

**The Chinese Diplomat Believed to be Dying.**

Special by wire to Times-Democrat.  
London, Aug. 2.—The Globes Shanghai correspondent in a special dispatch today states that Earl Li Hung Chang is believed to be dying.

## LYNCHED BY A MOB.

**Infuriated Citizens Avenge Murder of the Tassiferros.**  
Winona, Miss., Aug. 2.—Two women and one man, Betsy McCreary, Sallie Leyton and William McCreary, were lynched at Carrollton Thursday at 5 p. m. by a mob that stormed the jail, took the prisoners and hanged them. These three persons were remanded to jail by the coroner's jury that investigated the murder of Mr. and Mrs. Tassiferro, who were brutally killed at their home the night of July 26. Governor Longino was taken to Carrollton by an extra train, but he arrived too late.

Ida McCreary confessed to the knowledge of the murder, and stated that her mother, Betsy, and her brother, Belford, helped commit the murder. She further implicated others, who will probably meet a like fate. Betsy McCreary refused to make any statement.

The mob was composed of about 500 white citizens of Carroll county, who marched to the jail in order, demanded the keys from Jailer Duke, proceeded to the cells of the unfortunate negroes, bound them by the neck and hands and carried them to the corporate limits of the town, where they hanged them to a tree by the public roadside and riddled their bodies with bullets.

**Venezuela Cabinet Crisis.**  
Washington, Aug. 2.—The break in the Venezuelan cabinet caused by the resignation of Senor Pulido, the war minister, caused considerable surprise in diplomatic circles here. The real situation apparently is not understood and especially the proposition to demand his passports to Senor Rico, the Colombian minister. This act ordinarily is regarded by diplomats as tantamount to a census belli, and officials here are at a loss to understand the reason for such a step, as it is said that the relations of the government of Venezuela and Colombia are very friendly. Senor Guerra, who succeeds to the war portfolio, is a well known military leader and has occupied the position of adjutant general of the Venezuelan army. Senor Pulido, the retiring minister, is an uncle of Mr. Pulido, the Venezuelan charge d'affaires in Washington. The latter declines to discuss in any way the political situation in Venezuela other than to say that the relations between the governments of Venezuela and Colombia have been most cordial.

## SWAMPED

**By the Waves From a Steamer**

**Which Passed Near Their Small Boat.**

**A Woman and Four Children Sent to a Watery Grave While Out Boating Last Night.**

Special by wire to Times-Democrat.  
Central City, W. Va., Aug. 2.—Mrs. Fannie Hemming, aged 45, her daughter Kathleen, aged 14 and two grand children Imogene and Theodore Apperson, aged 4 and 5 years respectively, were drowned while boating at Chesapeake landing last night. They were near the Ohio shore when the steamer Sunshine passed down and the waves swamped the boat.

**Grain Market.**  
Special by wire to Times-Democrat.  
Chicago, Aug. 2.—Closing September wheat 65½; corn 57 1/8; oats 34½; pork 14.27.

**Live Stock Market.**  
Special by wire to Times-Democrat.  
Chicago, Aug. 2.—Cattle 23.000; 5 cents higher; hogs 21.000; 5 and 10 cents higher; sheep 8.000; steady.

## LAWS

**Should Not Permit Cornering**

**As is Credited**

**To the Multi-Millionaire, Rockefeller.**

**Such is the Declaration Made by Tom L. Johnson in New York.**

**Railroad Control is Getting Nearer to One Man Power and He Foresees Disastrous Results Therein.**

Special by wire to Times-Democrat.  
New York, Aug. 2.—In an interview today Tom L. Johnson said the laws should not permit such cornering of money as the acquisition of a billion dollars with which John D. Rockefeller is credited. He says railroad control is getting nearer to one man power and when the railroad trust is fully formed it will say to the farmers and manufacturers, "You shall market only so much and no more." He says one of the strongest planks in the Democratic platform of the national election will be for the reappraisal of all steam railway properties.

**Bryan Stands by Schley.**  
Lincoln, Neb., Aug. 1.—In his comment on the Schley controversy, W. J. Bryan takes the side of Rear Admiral Schley, giving him credit for the victory at Santiago and declaring it a pity that there should be any controversy that seeks to discredit a brave, honorable and modest sea fighter, who successfully led the American forces in one of the greatest, if not the greatest naval battle in the history of the world." Mr. Bryan denounces the Macley history of the struggle and thinks it strange that a historian finds it necessary "to resort to the lowest form of abuse in dealing with an historical character," adding: "As a clerk in the navy yards he should be displaced because of his outrageous assaults upon a man who has been the patient victim of the most remarkable series of attacks recorded in American history."

**Socialists Adjourn.**  
Indianapolis, Aug. 2.—The national Socialist convention adjourned after electing Leo Greenbaum of St. Louis national secretary and designating St. Louis as the national headquarters of the Socialist party. As the delegates fled from the hall they sang the Marxist song, "March warring during the night session hinged on the effort to embody in the resolutions a clause prohibiting Socialists from accepting office under either of the "capitalist" parties and from entering the ranks of the state militia. Both of these clauses were finally adopted. The judiciary of the country was branded as "a servile tool in the hands of the capitalist class and hostile to the interests of labor."

**Trying to Settle Frisco Strike.**  
San Francisco, Aug. 2.—The only phase of the local labor trouble is a strong undercurrent that is making for peace. The municipal league, which held secret meetings with labor leaders and employers, reports the outlook for a settlement is encouraging, and that a basis of adjustment may be reached soon.

**MINUTE BUT MIGHTY.**

**Trite Telegrams Tensely Traced on The Tablet of Time.**

Secretary Long denies the report that he will resign.

Warehouse of Fish Brothers' Wagon company at Racine, Wis., burned.

E. Heise & Sons flouring mill at Safford, Ind., destroyed by fire of incendiary origin.

George R. Holt, 59, prominent New York banker, died at his home at Great Neck, L. I.

At Henderson, Ky., William Holloway fatally stabbed Henry Hill in a quarrel about a woman.

In a drunken row at Crockettville, Ky., Charles and Robert Morris were shot and killed by Tom White.

Harry C. Mason of Cleveland, speaker of the lower house of the Ohio legislature in 1898; died of consumption at Prescott, A. T.

Major William E. Almy, son of the late Admiral Almy, died of appendicitis at San Juan, P. R., where he was with the Porto Rican regiment.

Fred Vost of near Sherburne, Minn., bound over to grand jury on charge of paternity preferred by Eloise Kuakle, his housekeeper, shot the woman and child and suicided.

## PEABODY

**Makes a Fierce Attack on Mrs. Eddy.**

Special by wire to Times-Democrat.  
Boston, August 2.—Fredrick Peabody, who recently appeared in court against Mrs. Christain Science Eddy, made a fierce attack upon her in a public lecture last night.

## CONDITION

**Of Signor Crispi Indicating That the End is Near.**

Special by wire to Times-Democrat.  
Naples, Aug. 2.—Signor Crispi, the Italian statesman, who has been ill for some weeks, is reported to be in a precarious condition today. His legs are paralyzed and his hands nearly so. The government has ordered that Signor Crispi's papers and property be sealed immediately after his death.

## DUEL FOUGHT

**Between Two Men With Fatal Results.**

Special by wire to Times-Democrat.  
Cincinnati, Aug. 2.—Early this morning Orville Rudesell and Ed. Crosby fought an impromptu duel in Crosby's house at Addistown. Crosby heard footsteps in an unfurnished room. He thought it was burglars and taking his revolver and lamp climbed the stair. The lamp was shot out by the other man and the duel continued, until ten shots were fired, then Rudesell fell. The lights showed Crosby the identity of his victim who was fatally wounded. Mrs. Crosby and Rudesell had been friends for some time and about eight months ago Rudesell was shot in the same house. Crosby is now in jail.

**Married Women Disqualified.**  
Washington, Aug. 2.—Regarding the question of forfeiture of Oklahoma land selections on account of marriage of women unsuccessful in the drawing, Secretary Hitchcock said the interior department always held that married women were not authorized to make a homestead entry except those who may have been abandoned and deserted by their husbands. "A woman not only must be qualified when registering or drawing her number," the secretary said, "but must be similarly qualified later when she applies to make entry. Marriage of a single woman, after making entry, does not defeat her right to title and patent if she continues to reside upon the land and complies with other conditions of the homestead law."

## ENDED

**The Governments Big Lottery in Lands.**

**Speculators Offering Their Claims for Sale.**

**Many Claimants Have Left the Territory, Believing the Claims to be Worthless. Others are Disqualified.**

El Reno, O. T., Aug. 2.—The drawing of winning numbers in the United States land lottery was concluded Thursday, 13,000 envelopes having been taken from the wheels, 6,500 for each land district. The crowd about the platform on which the drawing took place was much smaller than during previous days. Beginning Aug. 5, in each district 125 names will be called daily for 60 days for the filing of homestead entries.

The estimate is made by a government official that in each land district 1,000 of the 6,500 numbers will not be taken in the 60 days, because of homesteaders who will be disqualified or who will leave the country, believing their claims are worthless. This will leave only 5,500 persons who will make entry in prospective districts. There will be 2,000 claims left for the wagon emigrants and others who have been in the country for months and failed to draw a number. At the end of the 60 days these persons can go immediately to their land office and file, or if they settle upon a homestead in advance of any other person they can remain thereon three months before filing their entry.

Homestead speculators who registered for the sole purpose of selling their prize, if winners, are already seeking to sell relinquishment of their claims.

## MADE

**A Recommendation That**

**All Townships**

**In the State Have Health Officers.**

**Annual Report of the State Board of Health of Ohio.**

**Deals With Question of the Water Supply and Finds Many Cities Using Impure Water for Domestic Purposes.**

Special by wire to Times-Democrat.  
Columbus, Aug. 2.—The annual report of the state board of health made today shows that Ohio had 3223 cases of small pox during the year. Cleveland leading the list with 528 cases and 16 deaths. Investigation of water supply shows that only a few small branches would furnish water pure enough for domestic purposes. Mention is made of the following cities, whose water supply should be purified: Cleveland, Connaught, Ashtabula, East Cleveland, Glenview, Lakewood, Lorain, Lakeside, East Liverpool, Wellsville, Toronto, Steubenville, Cincinnati, and other cities on the Ohio river, with an aggregate population of 449,169. Cambridge, Denison, Urichville, Zanesville, Bucyrus, Upper Sandusky, Defiance, Findlay, Napoleon, Toledo, Alliance, Fostoria, Lisbon, Monroeville, Newark, Oberlin, Warren, Wellston, and Youngstown on interior streams with an aggregate population 316,724. A law is recommended requiring the appointment of a health officer in every township in the state.

## DEG UP THE LOOT.

**Bank Robbers Who Made a Touch at Akron Taken by Surprise.**

Goshen, Ind., Aug. 2.—Private detectives employed by an Akron (O.) banking institution made an important arrest in a local gambling den, which resulted in recovering about \$15,000 in currency and gold coin. The two men who were captured were suspected of having rifled a vault in the Akron bank 10 days ago and had since been shadowed. The men, who are said to be residents of Elkhart, county, were taken completely by surprise, and were hustled to Elkhart, where the booty was believed to have been secreted. The bank directors, from fear of a panic, did not make the loss publicly known. At Elkhart the robbers led the way to the outskirts of the city, where they had buried their plunder. The money was recovered and every dollar was accounted for. The detectives and robbers later left for Akron. The assistance of the local authorities was not asked.

**Kimberly Excused.**  
Washington, Aug. 2.—Rear Admiral Kimberly will not be a member of the Schley court of inquiry. His request to be relieved on the ground of ill health has been granted, and the department is considering the question of his successor. It is quite likely a selection has been made, but the official announcement will be withheld until the officer selected has been heard from. It is explained in connection with the acceptance of Admiral Kimberly's declination that this is the first time in 30 years he has requested the department to relieve him of a duty to which he was assigned.

**An Island Disappeared.**  
Duluth, Aug. 2.—Steamboat island, one of the Apostle group off Chequamegon bay, Lake Superior, has disappeared. Before the last storm and for time immemorial it was a small island of sand and rock, overgrown with trees. Now it is gone, a rocky reef several feet under water marks its place. It is now a danger to navigation and a lighthouse would be required on the ledge if it were in the path of ships.

**Alleged Train Wrecker Arrested.**  
Forest City, Ark., Aug. 2.—Charles Watford, 20, was arrested near Palestine and placed in jail at this place, charged with complicity in the train wreck on the Choctaw, Oklahoma and Gulf railroad which occurred at Palestine last Friday night, in which an engineer and fireman lost their lives. Other arrests are expected. It seems to be the prevailing opinion that the object of the wreck was robbery.

## THE TIMES-DEMOCRAT.

Organ of the Democracy of Lima and Allen County.

Issued Every Evening Except Sunday.

STEPHEN D. CRITES,  
of Allen County.  
WM. B. DECAER,  
of Paulding County.

For Representative,  
JOHN W. MANGES.

For Sheriff,  
EUGENE J. BARR.

For Treasurer,  
JAMES W. GENSEL.

For County Commissioner,  
ALBERT HEFNER.

For Coroner,  
DR. ANDREW BICE.

For Infirmary Director,  
W. E. GRUBB.

THE TIMES-DEMOCRAT RECEIVES BY WIRE THE TELEGRAPHIC AND CABLE SERVICE OF THE SCRIPPS-MORAE PRESS ASSOCIATION.

There is one advantage in carrying historians on the government payroll—history is written to suit the authorities.

Hard commandments should not be asked in hot weather, and, "what have we gained by the Chinese mix-up?" is a very hard one.

If that Tennessee war between revenue men and moonshiners keeps on as it began, the consumers of Tennessee "moonshine" will have to pay higher prices.

Comrade sickles may take a notion to ask comrade Hanna some embarrassing questions about the commission of pensions, at the coming A. R. encampment.

Boss Hanna winks the other eye every time he hears anybody say that Senator Fairbanks is the administration candidate for the Republican presidential nomination.

Perry Heath must not have squared comptroller Davies, who has ordered the "busted" Seventh National bank, at New York city, to pay depositors in full or take the consequences.

Today has been bunched. Somebody has made him believe that it is up to him to do the quiet and dignified act, in order to show that it would be safe to trust him with a presidential nomination.

Senator Blackburn says: "The political situation in Kentucky could not be brighter for the Democrats, we

will carry the state by at least thirty thousand and have a majority in the legislature of at least twenty-five."

Prof. Servias talks on the weather as follows: "For the next four years these gigantic outbursts will increase in fury, and a corresponding series of terrestrial seasons, marked by the great excesses temperature, sudden contrasts and extraordinary cyclone disturbances will follow." Time will tell. Just at present, however, the "excesses" are known to exist.

## A REPUBLICAN VIEW.

All Republican newspapers are not palpable, foolish prevaricators.

I. F. Mack is the well and widely known head and front of the Sandusky Register, which is such a zealous Republican that it oozes McKinleyism out of every pore.

Mack's paper is not in accord with the majority of the Buckeye Republican sheets. It is their claim that they are happy on account of the lack of harmony in the ranks of the Democrats. Here is what Mr. Mack says on that subject in his Register:

"The Republican papers that talk of a bolt among the Democrats and a Bryan convention to nominate a Bryan Democrat for governor may think that some of their readers will believe them to be in earnest, but the editors who publish such stuff know that their talk is all moonshine."

"The Democrats of Ohio are in the light to win, and they will keep it hot for the Republican managers from now on until the polls close. If the latter win they will not do so by a split in the Democratic ranks. We have never known them to be more united in this section or more hopeful of victory. So if we may judge of the situation throughout the state there is no indication of internal eruption in the Democratic party of Ohio this year. Of course, there are rumors of disturbances, but like the old time milk sickness, the disturbances are in the adjoining county, and finally are in the minds of sensational mongers and never materialize."

## PERSONAL.

Master Albert Lamson, of Toledo, is enjoying a visit here with his uncle and aunt, Mr. and Mrs. J. C. Ross, of north Pierce street.

Miss Georgia McIntyre, of Jackson, Mich., is in the city and will make her home with her aunt, Mrs. F. W. Tyre.

Miss Florence Tyre left yesterday for a two weeks visit in Toledo.

Jacob Kissel went to Chicago today to purchase a couple of car loads of cattle for Allen county farm stock.

The Home Guards of America meet in the Odd Fellows temple this evening.

Mrs. George Daniels and children, of south West street, are the guests of friends in Butler, Ind.

R. G. LeBlonde, of the Ottawa Sentinel, was in the city today.

\$1.00 Potatoes at Townsend's.

Call Ingledue about fish and chickens today.

An English association regarding woman's happiness has offered a reward of £500 for a greater blessing to woman than Rocky Mountain Tea. Sensible move. Ask your druggist. 42

This is Ingledue's fish day.

\$1.00 Potatoes at Townsend's.

Drink Phosphate Sodalets, bottled by E. Christen. 83t

F—I—S—H at Townsend's.

German South Sea Coal Depots. Berlin, Aug. 2.—The German naval department is establishing a number of coaling depots in the south sea, beginning with Matupi and Herbertshoe, in New Britain, Yap and Ponape, in the Carolines; Jaluit, in the Baltic group of the Marshall islands, and German Samoa. To these depots coal will be brought from the province of Shan Tung, China, to supply warships and merchant vessels.

Railroad to Red Sea.

London, Aug. 2.—Lord Cromer, British diplomatic agent in Egypt, in a minute attached to a report of Sir William E. Garsten, under secretary of state for public works in Egypt, dealing with irrigation projects along the upper Nile, supports a suggestion that a railway should be built from Khartoum to the Red sea rather than irrigation works.

Boer Prisoners Troublesome.

Hamilton, Bermuda, Aug. 2.—Marital law has been proclaimed in Tucker and Morgan islands, where Boer prisoners of war are confined. The British hired transport Manilla, Captain Haddock, from Port Natal July 4 and Table Bay July 8, arrived here with Boer prisoners.

## ALL ABOUT MILLET.

When to Sow and What Variety. How on the Land and Needs Measure. I am asked a number of questions regarding millet, says L. W. Lighty of Pennsylvania in The National Stockman and Farmer. When shall I sow? Millet can be sown any time after corn planting up to August in our latitude. Last season we were in the rainless district, and the ground was as dry as powder for a few months, until the beginning of August, when we had a shower. I then seeded two and one-half acres, and in about 45 or 50 days it cut over seven tons of excellent hay, and it made the growth with the aid of only two very light showers. With plenty of heat and moisture it grows very rapidly.

What variety? I tried a number of varieties, but the German or Golden millet gave me the most satisfactory results. How much seed to the acre? If seeded rather thick, it makes a finer growth and better quality of hay. It also is more likely to smother the weeds. But the weeds often make us trouble in the early season.

The ideal method to get ahead of the weeds is to prepare the land in the spring and then allow the weeds to germinate and harrow it thoroughly, allow another germination and then, about the middle of July, make a very fine seed bed and sow, and very few weeds will grow. But many times we want to use the land for other purposes or the weather will not allow.

I often grow a crop of Canada peas or oats before millet, and when that is off I disk the ground thoroughly and seed to millet, thus taking two crops in one season. I sow the seed broadcast. Sow only clean seed.

Is it hard on the land? Should I use stable manure or fertilizer? Yes, it is hard on the land. Like timothy, it takes all its food from near the surface. Disk a quick grower, it needs plenty of readily available plant food. So I prefer to plow or work in well rotted stable manure and use a quick acting fertilizer. A good fertilizer on my soil I found to be 150 pounds of S. C. rock phosphate, 50 pounds nitrate of soda and 50 pounds muriate of potash.

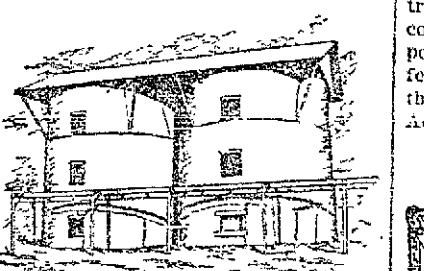

It makes a good silage crop. For hay I like to cut it when the earliest heads have made seed, but the average heads are just in blossom. If properly cured, this makes a very palatable hay.

## TWIN SILOS.

Of Large Capacity and Built to Last a Lifetime.

I am moved to send you a little sketch of twin silos recently put up by a large dairy company in New Jersey. These silos are of large capacity, being 22 feet in diameter and 30 feet high inside, and made of brick and stone throughout.

The plan is that given by Professor King in the Wisconsin bulletin on silos, with one notable exception. The door-

DOUBLE BARRELED NEW JERSEY SILO. way has no wooden frame, as given in the bulletin, but the door is clamped to the inside of the opening by strong rods, which pass to a timber across the outside. There is thus no woodwork to decay that cannot be easily replaced. These silos cost about \$800 each and are calculated to last a lifetime, writes a correspondent to Rural New Yorker.

Johnson Grass. Johnson grass has received considerable attention in Kansas lately. It is exceedingly difficult to eradicate the grass on land where it has obtained a foothold, and for this reason it may become a pestiferous weed. Hogs are rather fond of the root stocks and when confined upon a plot of the grass will destroy it. But on soil adapted to its growth it requires great care to eradicate it. If one wishes to grow Johnson grass, the best plan is to devote a field to the purpose without expecting to subsequently put the field in cultivation. With care it can be confined to this field. After a few years the ground becomes so full of root stocks that the development is hindered. To rejuvenate a field it should be plowed and harrowed in the spring or else thoroughly disked.

Valuable For the West. Hairy vetch (Vicia villosa) promises to be one of the best winter growing plants, both for forage and green manure purposes, in California. Besides hardiness against frost, it has a marked drought resistance. The mealy saltbush (Atriplex halimifolia) gives promise of surpassing in value even the Australian saltbush (A. semibaccata) on dry lands and gives indications of being of value in so called desert situations.

Agricultural Brevelles. "The queen of the money makers" is the latest and proudest bestowee by the poultry press upon the American hen. Cotton, corn and wheat are said to be the only farm staples that exceed her output in value.

Bone is the thing to sow on peach trees every time, says one grower.

Dig out the peach tree borers and jar the curculio. The cause of foam rising on extracted honey is said to be urine honey. Minnesota beekeepers in convention seemed to favor sweet and alkali clovers as good to sow for bee pasture.

## IN A GARDEN.

Some Late Plantings and Their Outcomes—Celery, Radishes and Beans.

After the early peas were picked and the potatoes dug the land on which they were grown was cleared of vines, plowed with a one horse plow and pulverized by means of the narrow tooth cultivator and a one horse planter. It was then planted to late crops, as follows: One-half row celery, one and one-half rows turnips, one-half row winter radish, one-quarter row spinach and one-quarter row lettuce. This was on July 23. On the same day string beans were planted in the space previously occupied by the early planting of the same crop. This half row was not replowed. The old vines were simply hoed off and the ground hoed over. A few cucumbers for pickles were also planted in the vacant spaces among the early cucumbers.

For the celery a furrow was opened with the one horse plow, and the plants, which had been grown in a seed bed, were set in the bottom of the furrow. A few days after the plants were set a heavy rain washed the dirt into the furrow and nearly buried them. The earth had to be loosened around each plant by means of a knife. Not many days later another heavy rain necessitated a repetition of the operation. As the celery grew the furrow was gradually filled up by means of the cultivator and hoe. When the plants were about a foot high, they were "hanked" and earthed up for blanching. The stalks of each plant were drawn close together and held with one hand while earth was packed about the base of the plant with the other hand. When earth was drawn up to the plant with a hoe until only the tops of the leaves were left exposed. Two weeks later it was necessary to again bank up the plants, since they had grown considerably in that time. It was then past the middle of October, and no further banking was necessary to blanch the stalks.

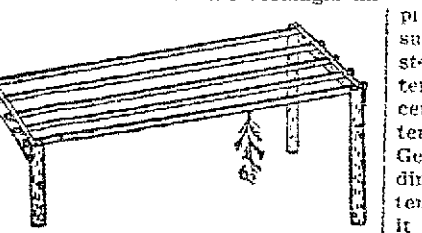

The spinach and lettuce planted July 23 failed to grow. The turnips did well until about the 1st of September, when the hot weather caused the leaves to turn yellow at the tips and finally die. The crop was almost an entire failure. A few peas planted Aug. 18 on the land previously occupied by early cabbage made a very decent but healthy growth and produced a small crop early in October.

Of the late planted vegetables the celery, winter radishes, beans and cucumbers produced satisfactory crops, so that, although some of the crops failed, the late planting as a whole was not unprofitable.

## COMFORT FOR CATTLE.

A Big Fly Brush For Cows in the Midsummer Pasture.

Relief from the fly torment is just as necessary to comfort and thrift of cattle in summer pasture as are shade, drink and food. A place where they may brush off their persecutors is easily provided by utilizing a device illustrated in American Agriculturist. According to the description given, four posts are set in a rectangle 12 by 8 feet, posts 3/4 feet high at one end of the rectangle and 3 at the other. Across each end of the rectangle an

eight inch board is nailed at the top of the posts. In the upper edge of these boards are cut notches about four inches deep and two and a half inches wide.

Now take boards 4 inches wide, 13 feet long and 1 inch thick. Arrange these in as many pairs as there are notches in each end board and bore holes through them at intervals of one foot preparatory to bolting them together. Brush is now placed between these boards and clamped fast. Only one of these brush is shown in the illustration. The clamps thus formed are now placed in the notches in the end boards, with the brush hanging down. They are held down by narrow boards nailed across the tops of the posts.

The difference in height at the two ends makes it suitable for cattle of all sizes. The brush will last for a long time.

Sowing the Turnip. For the fall and winter crop in the north.

On the fourteenth day of July Sow your turnips, wet or dry. In many parts of the northern and middle states tradition fixes the 25th of July as the proper time for sowing fall turnips for winter use. In the middle states turnips are sometimes sown as late as the end of August.

Echoes From the Press. The man who trusts in the Lord and goes A-fishing, leaving his plants to care for themselves, will find that they are unable to fight the battle alone.

If some enterprising queen breeder will get up a "nonswarming" strain, a greater benefit will be conferred upon the beekeeping fraternity than tongue reach. By this improvement all of us, from the red clover fields to the orange blossoms and from buckwheat to sage of the west, will jump for joy.

There are always kickers against the alfalfa. They are two legged kickers. I never have had a cow or steer or horse, or mule or hog to be on anything but the most friendly relations with my silos.

The average hired man has an antipathy for an oil can and will run a machine till his groans can be heard at a distance before he will look into the matter.

## RAINFALLERS STRUCK.

They Became Disgusted With Futile Bombardment With Mortars. Lincoln, Neb., 2.—The bombardment of the heavens with gunpowder Wednesday night in an effort to bring rain, which was conducted by W. F. Wright, was continued until 5 o'clock in the morning without producing the desired result. At that hour, when conditions were most favorable, according to Mr. Wright's theories, his 25 assistants, each firing a mortar, deserted him and he was obliged to postpone operations until Thursday afternoon, when he secured new help, and continued the bombardment through another night. Lincoln is greatly in need of rain. The temperature ascended to a maximum of 101 Thursday and a hot south wind was blowing.

Imprisonment For Debt. Boston, Aug. 2.—Thomas M. Scott, railroad financier and millionaire, was before Judge Bell in the superior court seeking to obtain an order of release from the Charles street jail, where he has been confined since Feb. 15 last for alleged failure to meet two notes said to be due Micah F. Clark, amounting to \$5,000. Mr. Scott's lawyer held that the imprisonment was unreasonable. The judge will announce his decision later.

Treasury Statement. Washington, Aug. 2.—Statement of the treasury balances in the general fund, exclusive of \$150,000,000 gold reserve in the division of redemption: Available cash balance, \$177,365,876; gold, \$39,955,831; silver, \$28,110,760; United States notes, \$12,860,917; treasury notes of 1890, \$113,095; national bank notes, \$9,551,180; deposits in national banks, \$162,162,254.

The Trust's Reply. Pittsburgh, Aug. 2.—The Amalgamated conference adjourned Thursday at 5 o'clock to meet again in the morning at 10 o'clock. It is claimed that the Amalgamated executive board received by telegraph a list of refusal from J. P. Morgan to reopen the wage conference where it was broken off at the Hotel Lincoln nearly three weeks ago. The powers of the steel combine insist that the only basis of settlement will be on the terms which President C. M. Schwab and Chairman Elbert H. Gray laid down at the meeting with the Amalgamated officers in New York last Saturday. There is scarcely a fragment of a hope that the Amalgamated association will back down from its well known position. The leaders of the workers will, properly, outline their plans to the steel corporation for a continuation of the great struggle, to include the stopping of every wheel possible in the works of the combine and the extension of the strike in all possible directions by the Amalgamated association.

Will Follow Washington's Plan. New York, Aug. 2.—Frederick L. Olmstead of Boston, D. H. Burnham of Chicago and Charles F. King of New York, who were appointed a commission to devise means of beautifying Washington, D. C., returned on the Deutschland. They visited the principal European cities in search of suggestions for their work. Mr. Olmstead said: "Broadly speaking, we intend to go back to the plan made a century and a half ago by Charles Peter L'Enfant, under the direction of George Washington. It is an extraordinarily good plan and we shall attempt to bring about a realization of it in a general way as far as practicable."

Union Men Complain to McKinley. Tacoma, Wash., Aug. 2.—The Tacoma Machinists' union sent the following telegram to President McKinley: "Moran Brothers at Seattle, with a strike involving all iron workers, have been awarded a government contract, while men on the government work at Bremerton have been laid off on account of lack of work. A member of the Metal Trades association here made a statement before witnesses that the association has influence with the administration and that influence has brought about the change in plans."

Killed by Lightning. Mississippi City, Aug. 2.—Captain John Astredo and M. D. Hooker, a traveling salesman of New Orleans, were instantly killed by lightning at the home of Captain Astredo. They were in the summer house, situated in a clump of trees in the yard, seated on opposite sides of a table, when struck. The bolt seemed to come from a cloudless sky, as the sun was shining brightly, but after the crash a small harmless looking cloud was seen. There was no mark of violence on the person of Mr. Hooker.

Terry to Tackle English Champ. New York, Aug. 2.—Sam Harris and Sam Fitzpatrick, the respective managers of Terry McGovern and Jack Roberts of London, the English featherweight champion, agreed on a match between their men for the world's championship at 126 pounds. Thirty days is the time given for the reception of bids from athletic clubs who may want to bring off the match.

Coast Artillery Increased. Washington, Aug. 2.—Lieutenant General Miles, commanding the army, issued an order for the immediate organization of nine additional companies of coast artillery, making the total number 105. The number is limited by law to 126.

Cadillac Won First Race. Chicago, Aug. 2.—In the first of the additional trial races for the Canada cup between the Cadillac and the Milwaukee the former boat scored the victory, defeating its rival by about two minutes.

## TASK

Of the Democracy of Maryland Was Fulfilled.

Gorman's Hand was Plainly Visible

In All the Work Done in the State Convention Held Yesterday.

An Open Secret That He Will be Returned to the Senate if the Democracy Wins in the Fall Election.

Baltimore, Aug. 2.—The state Democratic convention declared that the purpose of the party, if successful in the coming election, is to eliminate the negro from politics in Maryland, if such a thing be possible under the constitution of the state. Upon this, the paramount issue of the campaign, will stand the candidates nominated for state offices and those chosen in the various county and district conventions as candidates for places in the legislature of 1902, which body will elect a United States senator to succeed George T. Wilkinson. That his successor, in the event of Democratic victory, will be Arthur P. Gorman, is settled beyond question, although no formal announcement of his candidacy has yet been made.

The nominal purpose for which the convention met was to select candidates for the offices of controller and clerk of the court of appeals, and it fulfilled this task by unanimously naming Dr. Joshua W. Haring of Carroll and J. Frank Turner of Talbot, to succeed themselves in the places mentioned. This action, however, was a foregone conclusion, and the real business of the convention was the formulation and adoption of a platform upon which the Democrats could go before the people of the state. The combined sagacity of all the Democratic leaders in the state was called into requisition for this purpose and under the advice and guidance of Mr. Gorman the following declaration upon the chief point in issue was evolved: "The Democratic party represents more than 4,000 majority of the white people of Maryland. They in common with their brethren of other states, into which large masses of colored voters have been injected into the body politic, recognize that the peace, good order, personal safety and proper development of our material interests depend upon the control of the commonwealth by its intelligent white residents. Without the aid of the 60,000 colored voters, the Republican party in Maryland would be a hopeless minority."

"We, therefore, without hesitation, proclaim that the success of the Democratic party will mean that while we shall deal with perfect fairness in securing all the benefits of good government and full and free opportunities for education to all classes, such action must be taken as to prevent the control of the state government from passing into the hands of those who have neither the ability nor the interest to manage public affairs wisely and well."

The other planks in the platform reaffirm the devotion of the local party to the principles enunciated by Thomas Jefferson; assert that Democratic control is necessary to the welfare of the state; commend the administration of John Walter Smith as governor; pledge the party to amend the charter and school laws in such manner as may seem proper; declare the course of the governor in calling a special session of the legislature and the action of that body in passing laws to limit the exercise of the right of franchise to those who are able to read and write, to be patriotic in the extreme; denounce the federal authorities for frauds and irregularities in the late federal census; commend the state authorities for the manner in which a recount of the people was made and pledge the party to the adoption of such laws as will make the primary elections as fair as those held under the general elections law.

The platform went through without a dissenting voice or vote. The only rift in the lute of perfect harmony came when the announcement of the members of the new state central committee was made, and it was discovered that every opponent of Freeman Rasin in municipal politics had been dropped from the list and then places filled with men whose loyalty to the organization is unquestioned. Both Mr. Gorman and Mr. Rasin were present throughout the proceedings, but neither appeared on the platform, nor did they occupy seats in the body of the hall. After the convention adjourned Mr. Gorman held an informal reception behind the scenes, and great enthusiasm was shown by those who crowded forward to shake his hand.

## ARSENIC

Found in the Stomach of the Deceased, But How it Reached There Must be Determined.

Coroner's Inquest of the Death of Ernest Andrews Held, But the Verdict Has Not Yet Been Prepared.

Coroner Burton held his inquest yesterday, of the death of Ernest Andrews, the well known machinist who was found dead in his room at the Guy boarding house on north Jackson street, last Monday evening. A number of witnesses were examined and a few points of importance were brought out but it may yet be several days before the coroner will be able to render his verdict determining the cause of the young man's sudden and mysterious death.

Mrs. Guy testified that Mr. Andrews came into one of the rooms at the boarding house and poured some water into a glass from a pitcher as though he was about to take a drink. She called his attention to the fact that the water was warm and although he had always been very particular about having cold drinking water before, he remarked on this occasion that it did not make any difference if it was warm and took a swallow of the water.

The chemical analysis to which the contents of the deceased's stomach has been subjected has developed the fact that there was a quantity of arsenic in the stomach but as the body was embalmed before the stomach was removed there is a question as to whether or not the arsenic was not in the embalming fluid and reached the stomach from the arteries. This question may be determined when the formula of the embalming fluid is procured.

INGLEDUE'S POTATOES.

Are \$1.10 per bushel.

Johnson's Swim. Street cars there every ten minutes.

## MOTHER

And Daughter Were Parties in the Case, But the Latter Keeps Possession of Her Child.

Mrs. Jane Olinger Took Action to Have a Guardian Appointed and Made Sensational Charges.

An effort made by Mrs. Jane Olinger to get possession of her grand child, Minta Stumbaugh, from the child's mother on the ground that the latter was not a suitable person to have the care of it, has proved futile and the Probate Court will not interfere. The action is the outgrowth of considerable family trouble and there is a long story back of it, involving more or less contention between the mother and daughter over a small piece of property and the care of the child in question. It was proven when the matter came into court that Laura Stumbaugh had secured divorce from her husband in Montgomery county and the common pleas court had restored her maiden name, which was Laura Olinger, and granted her possession of the child. When that fact was proven, the charge of Laura Olinger's mother that the latter was living in adultery and the child, who is ten years of age, should be taken from her, was not found to give the probate court jurisdiction in the matter.

Mrs. Jane Olinger replevined some property claimed to be held by her daughter and the latter, in turn got possession of some things belonging to the child. The defendant denied the charge preferred by her mother and there is now likely to be another action filed.

If day could be night and night could be day, if smiles could be tears and tears could be smiles, something might do you as much good as Rocky Mountain Tea. Ask your druggist. 41

Phosphated Sodalets bottled by E. Christen are just what you will relish these warm days. 83t

## WORK

On the Lima-Lewis-  
ton Line

Will be Started

At Westminster on Next  
Monday.

Right of Way Secured Ex-  
cept Through a Strip  
Near This City.

Line to Connect Lima With West-  
minster, Roundhead, the Lewis-  
ton Reservoir and Belle-  
fontaine.

Long before Lima's first interurban railway is in operation between this city and St. Marys the construction of a second electric line will be commenced by the promoters who are, as has been previously stated by the Times-Democrat, most of them, residents of this city. Unless the plans that are now all but fully matured fail between today and the first of the coming week the construction of the grade for the projected Lima-Lewis-ton-Bellefontaine electric railway will begin their work at the village of Westminster, seven and one-half miles southeast of this city and will work both towards this city and towards Roundhead, the next proposed way station of importance southeast of Westminster.

How soon the grade of the new line will be completed into this city and by what route the tracks will be constructed into this city cannot now be definitely stated as there are still four farms intervening between the city and the end of the right of way that has been secured by the promoters of the enterprise. These four farms are the Tappan, Marshall, Roberts and Goodwin farms situated directly outside the city limits along the Bellefontaine road. The promoters of the project have made some effort to secure a sixteen foot strip of right of way has been agreed upon and the route into the city may possibly be changed slightly.

The completion of this proposed railway will be of vast importance to the city of Lima and also to the owners of property within a few miles of the city. The road will be constructed so as to reach the most desirable points at the Lewis-ton reservoir, via Westminster, Roundhead, Indian Lake, Huntville and thence to Bellefontaine. Already citizens of Lima and other towns along the Western Ohio railroad are securing options on property along the road for country residence purposes and the same re-

sult will probably follow the construction of the Lima-Lewis-ton-Bellefontaine line. For sportsmen and other pleasure seekers the completion of the new line will also be hailed with delight as it will provide the long wished for transportation to and from the most desirable points at the reservoir and will furnish an inducement for the building of good hotels, cottages and suitable summer resorts at various points.

### CARD OF THANKS.

The Ladies' Industrial Circle of the M. E. church of Allentown, wish to thank Mr. and Mrs. Scott Neely for the use of their pleasant home and ground for their festival. Also all those who assisted with the music and the public at large for their liberal patronage.

COMMITTEE.

\$1.00 POTATOES.

Potatoes at \$1.00 per bushel is a very low price, at Townsend's, Saturday only.

### YOUNG SON

Of Mr. and Mrs. Sampson  
Sawmiller Passes Away.

Gerald B., the two year old son of Mr. and Mrs. Sampson Sawmiller, of 947 west North street, died at 7:35 o'clock this morning, death resulting from stenosis of the larynx. Funeral will be held tomorrow at 4 o'clock at the Wayne street church of Christ.

Every form of indigestion and every kind of headache disappears immediately after a dose of Bromo-Pepsin. This is one reason why physicians prescribe it. Another reason is that it is absolutely harmless. All druggists. 10c, 25c, and 50 cents per bottle.

### ATTENTION U. V. U.

It is specially requested that all members of the Union Veterans Union meet at Dodge hall tonight at 7:30 o'clock. Business of importance on hand. Turn out boys.

LOUIS T. ELLIS, Colonel.  
CHARLES COWLES, Adjutant.

### UNDER A TENT

This Vaudeville Co. Will  
Show Next Week.

L. J. Becker and S. R. Adams are in the city today representing the Empire Vaudeville Co. which will open their big ten-cent show in this city Monday, August 5, on grounds near the bridge on south Main street, under a canvas, for one week. Admission, 10 cents. Ladies free Monday evening. Change of program each night.

Silk Portiers that were \$10 reduced to \$2.98 a pair at Carroll & Cooney's.

## FELL

Beneath the Feet  
of the Horses.

Was Injured

So Terribly That Death  
Soon Ensued.

A Fatal Accident That Happened to a Cousin of  
Jacob Seiford.

Good News Comes from Rev. G. R. Mell, Concerning His Call to a Church at Delphos.

Last night Jacob Seiford, of St. Johns avenue, received word from Spencerville, that his cousin's wife, Mrs. Jacob Seiford had been killed in a runaway accident Wednesday near Southworth. Deceased with her mother, Mrs. Bowen, had been to mill having returned home were removing the grain from a wagon when the horses frightening ran away. Mrs. Bowen sprang from the vehicle when Mrs. Seiford climbed into the wagon to stop the animals. She was thrown forward between them, being killed by one of the horses. The heavy wagon wheel also struck her head. She died a few minutes after the terrible accident. Deceased's relatives and friends in south Lima are terribly shocked by her premature tragic death.

The south side friends of Rev. G. R. Mell, brother of Dr. J. E. Mell, of south Main street, will be pleased to learn he has been called to the pastorate of the Christian church at Delphos. His late charge was at West Milton, where he was very popular with not only his congregation but the citizens of that place generally. A grand farewell was tendered Rev. and Mrs. Mell, by the people of West Milton Tuesday evening. The esteem in which he was held by the people of West Milton was demonstrated by nearly the entire population being at the train to bid him farewell.

The children of Henry Dean, of St. Johns avenue, yesterday received from their parents now at the Pan-American at Buffalo a large box of choice fruits, which they sent home. Mr. Dean also sent his children some beautiful presents from the exposition.

Mrs. Joseph Thompson, of south Pine street, is so critically ill that her condition is at present very alarming. Charles Bransman left yesterday for an extended visit to Iowa.

Clinton Wells, of Kenton, has returned home after a two days visit in this city.

Mrs. William Schmidt, of south Union street, is visiting in Wisconsin. Albert, the infant son of Prof. J. F.

Drennen, of south Elizabeth street, who has been seriously ill is rapidly improving.

Mrs. J. B. Curry, of south Pine street, graciously entertained friends at a well appointed tea party at her home yesterday evening.

Rev. A. D. Welty, of south Lima, accompanied by his wife, returned last night from Cleveland where they attended the annual meeting of the Alliance Missionary meeting at Euclid park. They report a pleasant and helpful meeting.

Mrs. Grandstaff and children, of the south side, have gone to Sandusky, where they will visit a few days, then proceed to the Pan-American exposition.

Mrs. C. W. Fisher, of south Lima, has gone to Lafayette for a two weeks visit with her parents.

Mrs. Perry Strayer, of south Main street, left today for Kenton, where she will be the guest of friends the next ten days.

Harry Christ, of Dunkirk, having completed a visit with relatives in south Lima and near Cridersville, returned home this afternoon.

Miss Julia Myers, of Dayton, arrived in south Lima this afternoon for a protracted visit with relatives and friends. She may probably make this city her future home.

Early Thursday morning burglars effected an entrance to the home of William Schmidt, on south Main street by cutting a screen in a door at the rear of the house. The thief secured \$7 in money besides a watch. There is no clue whatever to the guilty party.

W. E. and J. R. Glenn, of McPherson avenue, have gone to Kenton, called there by the death of their father, William B. Glenn, a pioneer citizen of Hardin county. Miss Bessie Glenn, a daughter of the deceased was visiting in south Lima when the sad intelligence was received. She accompanied her brothers to Kenton to attend the funeral.

W. H. Stout, of west Vine street, watchman at the steel works, who was so badly injured at that place some time ago, has recovered sufficiently to resume his duties.

Marion Graham, of Marysville, is visiting with south side friends.

Mrs. E. J. Casey, is the guest of Mrs. J. D. Wald on Hughes avenue.

Charles McNeal, of Marysville, is paying a visit to William McNeal on east Second street.

Mrs. J. M. Hutchison, of Dunkirk, having concluded a visit with Mrs. Al DeVoe, of south West street, left yesterday for Cairo, Mich., where she will visit a few weeks.

Misses Bonnie and Bertha Wetherill are at Bluffton for a visit with their uncle.

Charles Warren, of the south side, is spending his vacation at Columbus. M. E. Eyer, of St. Johns avenue, accompanied by his wife, have returned from a trip to the Pan-American at Buffalo.

Miss Emma Blosser, of south West street, is entertaining Misses Maude Miller and Gertrude Blosser, of Kenton.

Upholstery Tapestry reduced from \$1.50 to 98c a yard at Carroll & Cooney's.

### CHEAP POTATOES.

Saturday only Townsend will sell choice potatoes at \$1.00 per bushel. Buy, as it is an extremely low price.

### BURGLARS

Tried the Rear Door of Penny & Penny.

It was an Amateurish Attempt and the Effort to Get Inside was Unsuccessful.

An unsuccessful attempt was made to burglarize the hardware store of Penny & Penny on the corner of Main and Spring streets, as was discovered by the proprietors yesterday morning when they opened the store for business. There is the stamp of amateurs left on the rear door, where the midnight burglars sought entrance, and there is evidence that a heavy bar or chisel was used to break the fastenings.

The effort to get inside was unsuccessful and the burglars were either frightened away or discovered that the bolts and bars were strong enough to keep them out. Nothing was left behind that would answer for a clew and an attempt to strike a trail would be almost impossible under the circumstances.

### INGLEDUE'S COFFEE.

Package Coffee 8 pounds, 99c. Best line of bulk coffees in the state. Try them.

Have your picnics and outings at McBeth's Park. 123-12

## TWO SPECIAL . . . WASH GOODS BARGAINS FOR SATURDAY, AUGUST 3d.

In order to at once close out our entire stock of fine Summer Wash Goods, we divide them into two lots and put a price on them that will sell them all.

LOT 1 consists of fine Dimities, Batistes, etc. the regular price of which was 15c and 18c a yard.

Saturdays' Price 7 1-2c a Yd.

LOT 2 consists of a large assortment of Pongees, Foulards, etc. worth up to 35 cents per yard.

Saturdays' Price 15c Per Yd.

These prices are for Saturday, August 3rd. only.

## FELTZ BROS. & CO.,

1st Door South of Court House.

## CUT

Short by the Hand  
of Death.

The Sad News

Received from Detroit  
This Morning

Of the Sudden Call Which  
Came to C. H. & D.  
Conductor Herkins.

Deceased is Well Known All Along  
the Division and Has Been for  
Years on Passenger Between  
Dayton and Delphos.

Word was received at Lima today of the death of S. Herkins, a well known passenger conductor on the C. H. & D., between Dayton and Delphos, and the circumstances attending his sudden demise are particularly sad.

Mr. Herkins, accompanied by his wife had gone north to spend a few weeks among the Michigan resorts, and the former was taken suddenly ill at Detroit and died during the night. They have been making their home at Dayton, although previously they lived at Delphos where the deceased was well and favorably known. The remains will be taken to Dayton for burial on No. 3 this afternoon.

C. H. & D. Notes.

Several of the boys in the machine shops were laying off yesterday, among whom were J. F. Newbright, Theo. Von Blon, Charles Brown and P. J. Raheley.

The C. H. & D. has placed in its Michigan service a new parlor car just received from the Barney & Smith shops which will run between Cincinnati and Detroit. The parlor proper contains twenty chairs. The car also has a smoking room, with couch and four chairs; also, toilet room, a buffet and cafe saloon, in which meals are served a la carte.

The Troy Record gave an account several days ago of a narrow escape from the collision between two C. H. & D. freight trains, but there was no report made of it at headquarters, and it now develops that an over-anxious report for the Record had his ear pumped full of "chaff" by the boys who like to help fill up the news columns occasionally regardless of what constitutes truth and veracity.

Brakeman Perry is on car No. 44 in the place of Brakeman Alexander, who is off on account of the illness of his daughter.

Baggage-master Noodin on 10 and 11 is off for three or four days, personal business engaging his attention. Brakeman Trimmer has been put in his run.

Brakeman Vinton has relieved brakeman Trimmer and brakeman Wentz has been put on the local for a few days.

### General Notes.

The C. H. & D. will have two popular excursions next Sunday, one to Toledo and the other to Cincinnati. The fare to the lake resort will be \$1.25, and the fare to Cincinnati \$1.50. The attraction at the Queen city will be the ball game.

The Lake Erie and Western will have its popular excursion to Sandusky and Cedar Point, Sunday for \$1.00. Conductors Frank Strohl and J. N. Johnston, of the L. E. & W., are laying off.

Conductor C. H. Davis, of the L. E. & W., who was slightly injured about a week ago, has resumed his duties.

8 pounds coffee 99c at Ingledue's.

### UNIFORM

Rates Will be Charged  
by Liverymen.

Held a Meeting in an Office  
Last Evening.

Fourteen Dollars Per Month to be  
Charged for Boarders—Other  
Rates Will be Considered Later.

The local livery barn proprietors held a meeting in C. J. Brotherton's office last night and formed an association, the object of which is to be a uniformity of rates that will be charged hereafter. Every livery and feed stable in the city is said to have been represented and the session lasted from 7 until 11 o'clock, with an agreement being reached on one important point before the adjournment. The rate for boarding horses has heretofore been from \$10 to \$12 per month and the liverymen have agreed to raise this rate to \$14 per month. The chief argument in favor

of this advance in the rate for boarding was the increase in the cost of feed.

The association will hold another meeting in the near future for the purpose of endeavoring to establish uniform rates in the other branches of the livery business.

Relieved by a Bath with

# Cuticura

## SOAP

And a single anointing with CUTICURA, the great skin cure and purest of emollients. This treatment, when followed in severe cases by mild use of CUTICURA RESOLVENT, to cool

goses of CUTICURA RESOLVENT, to cool and cleanse the blood, is the most speedy, permanent, and economical cure for torturing, disfiguring, itching, burning, bleeding, scaly, crusted, and pimply skin and scalp humours with loss of hair ever compounded.

**Millions of Women**

USE CUTICURA SOAP, assisted by Cuticura Ointment, for preserving, purifying, and beautifying the skin, for cleansing the scalp of crusts, scales, and dandruff, and the stopping of falling hair, for softening, whitening, and soothing red, rough, and sore hands, for baby rashes, itchings, and chafings, in the form of bathes for covering irritations and inflammations, or too

free or offensive perspiration, in the form of washes for ulcerative weaknesses, and many sanative antiseptic purposes which readily suggest themselves to women and mothers, and for all the purposes of the toilet, bath, and nursery. No amount of persuasion can induce those who have once used these great skin purifiers and beautifiers to use any others. CUTICURA SOAP combines delicate emollient properties derived from CUTICURA, the great skin cure, with the purest of cleansing ingredients and the most refreshing of flower odours. It unites in ONE SOAP at ONE PRICE, the BEST skin and complexion soap, and the BEST toilet and baby soap in the world.

**Complete External and Internal Treatment for Every Humour,**

**Cuticura**

Consisting of CUTICURA SOAP, to cleanse the skin of eruptions, scabs, and sores; CUTICURA RESOLVENT, to cleanse the blood, and relieve itching, inflammation, and irritation, and soothe hot feet; and CUTICURA DYSPEPSANT, to cool and cleanse the stomach, bowels, and liver, which sufficient relief will soon follow, curing disgusting humors, and every skin, scalp, and blood disease, such as eczema, dandruff, ringworm, and all other eruptions, without loss of hair, when all else fails. ## ONLY

A Few More Days  
are Left

But the Time

Is Sufficient If Support  
is Given.

A Few More Shoulders Put  
to Wheel and the Work  
Still Goes On.

The Last Hundred Lots Should be  
Disposed of Without Additional  
Effort and Then the City  
Can Celebrate.

With a record of forty-two lots sold yesterday, the canvassing committees closed their work, and while the result of the day before was not equalled, the showing was sufficient to keep up the ardor of those who have had their spirits to the wheel, determined that Lima should not lay down in the face of the most important opportunity in the history of the city.

Calls for substitutes to relieve those who have dropped their business in order to meet the pressing emergency, have been responded to with a will, and following in the footsteps of those who started the thorough canvass, the new members have not been without inspiration and, consequently, their efforts were crowned with success. There have been many and aggravating stumbling blocks, but passing these there would be found a more fertile field and the men with the proper spirit ready to add their mite to carry out the proposition.

In some few instances there has been an absolute refusal to take hold of the project, but the committees are not in the boycotting business and every man has the right to use his own pleasure, taking his chances, however, of peeping the reward that is sure to come to those who have come to the rescue according to their means.

In order to explain what the retention of the Lima Locomotive and Machine Works means to Lima, facts and figures have been used by the local press to an extent that there is no longer any use to offer the excuse that the proposition has not been fully and abundantly exploited. While in some respects it is a favor asked, the question of who is to eventually reap the profits has already been solved. Everybody knows that a mechanic, in whatever department he may be employed, commands a good salary. Experts draw from three to five dollars a day, while even the beginner is able to live comfortably on his income after an apprenticeship of a year or two.

The company has already agreed to double its capacity, and consequently its working force, as soon as the new shops are opened, and that means the employment of 600 men at the very start, with almost an absolute assurance of 1,000 men within the next few years. It does not need a mathematician to figure what the monthly payroll of such a working force means to a city which is sure to look forward to its manufacturing industries for support now that the oil industry has been reduced to a minimum.

These facts have been forced on the people of Lima since the beginning and it is encouraging to note that the town is beginning to throw off its stupor and grasp the idea with its full meaning. It has been a tussle to sell the lots, and they were not piling up very fast until within the past few days, but it is now the opinion of the workers that the good will be reached. There are over 100 in the several classes yet to be disposed of and there are thousands or more citizens left who can well afford to subscribe, even if it were not expected that every purchaser will get full value received.

As usual the solicitors met last night and a careful comparison of notes showed that 168 lots had been sold to responsible persons. Again today some new blood was added to the committees, and, assisted by the old campaigners the work was kept up, with the result that the figures are slowly but surely increasing, and getting near to the total required.

In addition to the list published last night the following names have been added:

John E. Maxwell, W. B. Richie, Z. A. Croason, C. C. King, Robert G. Miller, Paul Agorner, L. E. Fichtner, W. B. Stump, B. F. Williams, James B. Young, C. C. Curtis, J. W. Linderman, R. V. Dicker, Isaac N. Thomas, Thos. Baumgardner, J. N. Barker, J. A. Maurer, W. L. McClain, Louis Jones, P. J. Holleran, John O'Connell, J. C. Mack, Frank DeVoe,

K. A. Simons, Frank Colucci, Thos. Morrison, A. Lewis, W. E. Crayton, Chas. Mum, Thos. Felst, Henry Thoring, D. B. Nulter, W. H. Mat-dugay.

## INFANT

Is Left Motherless by This  
Sudden Death.

Wife of J. A. Becker, of Perry  
Township Died Last Night—  
Funeral Sunday.

Mrs. Flora Becker, wife of J. A. Becker, of Perry township, two miles south of the city, died last night at 10 o'clock, leaving a family of several children, including an infant. The deceased was 32 years of age, was born at Rochester, Ind., and was a daughter of Mr. and Mrs. Simeon Frear.

Funeral services will be conducted by Rev. W. H. Leatherman and will be held Sunday. Interment will be made in the Shawnee cemetery.

## SISTER

Of Miss Blanche Mc-  
Curdy of This City

Killed in a Runaway Near  
Southworth, O.

After a Farm Team Had Started to  
Run Away She Climbed Into  
the Wagon, Then Fell  
Under the Horses.

Night before last Miss Blanche McCurdy, who is employed as a domestic at the home of Mr. and Mrs. Alex. Frankel on west Spring street, was called to the home of her mother, Mrs. John Brown, east of Southworth by a telephone message which announced the death of her only sister, Mrs. Bertha Eifer, who also lived near Southworth. Mrs. Eifer lost her life in a runaway accident that occurred when she and her mother, Mrs. Brown, were returning home with a team and a two horse wagon from Delphos.

When they arrived at the Eifer home Mrs. Eifer alighted. The horses were restless, being annoyed by the flies. Mrs. Bowen had started on toward home with the team when one of them got a leg over the tongue of the wagon, and Mrs. Bowen became frightened and jumped out of the wagon, after the horses had started to run. Mrs. Eifer evidently feared that the horses would break up the wagon, although they could not run fast, on account of one of them having a leg over the tongue. She ran and overtook the wagon, scrambled into the box at the rear end, crawled over the spring seat and reached down toward the doubletrees to get hold of the lines, when those who were watching her were horrified to see her plunge forward and fall between the horses. When the team had passed on Mrs. Eifer lay in the road. Mrs. Bowen and others ran to her and found that she was seriously injured and unconscious. She was taken to the house and expired about 10 minutes later. The right side of her head was crushed, causing her death. Her left ear was also torn off, her right arm mangled and her right side bruised. It is thought that the hoofs of the horses inflicted the fatal injuries.

Special sale of Portiers at  
Carroll & Cooney's. See display in their north show window.

## COULDN'T

Capture the Coveted Tennis  
Honor.

But the McLaughlin Bros. of Lima  
Got the Next Best Thing in the  
State Tournament.

McLaughlin Bros. won out in the contest for consolation doubles in the state tournament which was held at Cleveland, but Henry Andrus, of Cleveland, won over Warren McLaughlin in the semi-final singles, and will consequently be pitted against Nat Emerson, of Cincinnati, for the state championship today. The Lima boys were handicapped by Tom McLaughlin's sudden illness and the latter, after playing in the doubles in spite of his condition, was compelled to return home before the tournament was ended. Although unsuccessful in their effort to obtain the championship in doubles, the Cleveland Leader says they got the next best thing and proved themselves to be champions of the first degree. They will be dangerous opponents next year.

## WHAT

Will the Committee  
Accomplish?

Meets Tonight

To Investigate Police  
Scandals.

A Few Witnesses Have Been  
Notified to Appear at  
the Meeting.

Chief of Police Harley and Sergeant  
Caddy Have Employed an  
Attorney for Their  
Defense.

This evening the members of the police committee and other members of the city council will meet in the city civil engineer's office for the purpose of investigating the conduct of the police department of the city and the conduct of certain members of the police department who are alleged to have been guilty of violations of discipline and conduct unbecoming an officer in the city's employ.

What course this committee will pursue and what it will accomplish by its official investigation remains to be seen. No specific charges have yet been prepared and the committee may decide to make the investigation tonight an informal one and if any evidence is secured warranting further action charges against any member or members of the department against whom evidence is produced, may be prepared in writing and a hearing arranged for at which the officers may defend themselves. Chief of police James Harley and sergeant of police James Caddy have employed an attorney who will attend the meeting tonight for the purpose of defending those two officers.

How much of an effort has been exercised by the police committee to secure evidence substantiating charges that have been informally made against officers Harley and Caddy, also remains to be seen. It is given out that some summons have been issued for witnesses but quite a number of important witnesses who could throw some light upon the workings of the department have not been requested to tell the committee what they know.

Silk Portiers that were  
\$13.60 marked down to  
\$2.95 a pair at Carroll &  
Cooney's.

## THE IDLER.

After Kentucky Oil.  
Charles Beeler and Milt Dalzell, the oil contractors, accompanied by two crews of drillers left yesterday for Somerset, Ky., where they have the contract for putting down a number of wells in the newly discovered field.

After Another Lot.  
Jacob Kissel left this morning for Chicago, where he goes to purchase another lot of cattle for delivery at Lima. Mr. Kissel has sold a number of head in Allen county during the past month, two car loads being disposed of within the last week to Dr. Baxter and taken to his farm, where they will be prepared for market.

Getting Ready for the Flight.  
Johnny Knarr has received word from "Zeno," the female balloonist, that she will be here within the next few days, in response to the engagement for a double ascension at Delphos on the 14th of August. It is a coincidence to note that thirteen years ago on the thirteenth of August, Prof. Knarr made one of his early ascensions in the same town.

St. Marys Gets Two.

Two more of the new cars to be used on the Western Ohio interurban line have arrived but they are to be sent to the other end of the road and unloaded at St. Marys. They are of the same design and pattern as those delivered at Lima and it is evident that they will soon be put in operation on the other division of the road or they would have been kept here where they could have been used on the McBeth lake line. It is understood that the company will later put some of the big combination cars in service to accommodate the traveling men. They will have separate compartments for trunks and baggage and be much longer than those now in use.

## VILLAGE

Of Glandorf Visited by  
Flames

Which Do Considerable Dam-  
age to Property.

Bending Works, a General Store, a  
Wagon Shop and Several Dwell-  
ings Destroyed—Help  
from Ottawa.

About 2 o'clock this morning the village of Glandorf, west of Ottawa, on the Findlay, Ft. Wayne & Western railroad was visited by fire and considerable damage was done to the principal property in the town. The fire started in the blacksmith department at the Free Bending Works and spread with great rapidity, destroying the mill and the stable and other buildings in connection with the plant which included stock, one horse and several vehicles. The general store and dwelling of a man named Fox, were destroyed; loss \$6,000 and insurance \$2,500. John Rosegarde's wagon shop, barn and residence, were burned; loss \$2,000, insurance \$1,000; and the dwellings of citizens as Halpriel and Schmidsch were also destroyed, each valued at \$1,000.

The damage caused by the destruction of the mill is estimated at \$18,000 and the plant was only insured for \$8,000. The fire was not headed off until the Ottawa fire department reached the scene on a special train and lent assistance to the village department.

## HOLDS

The Company for  
Damages

For an Assault

Committed by a Private  
Detective.

An Affray on an Excursion  
Train Develops Into a  
Legal Action.

A Delphos Man Was Beaten up by  
a C., H. & D. Detective Be-  
cause He Smoked a Cigar-  
ette on the Train.

An accident for damages in the sum of \$5,000 against one C. H. & D., has grown out of an alleged assault committed upon Joseph Wurster, of Delphos, by Perry Crooks, a detective in the employ of the company. The Times-Democrat published an account of the trouble, which occurred on an excursion train returning from Cincinnati to Delphos, Sunday, July 14. Crooks was in citizens clothes and he ordered Wurster to quit smoking a cigarette in the car. Not knowing him to be an officer, Wurster gave him a curt reply, whereupon the detective struck him in the face. A struggle followed and Crooks brought his mace into use, delivered a blow which rendered the Delphos man unconscious.

Action has now begun to compel the railroad company to pay for the damage done, the petition being filed at the clerk's office yesterday afternoon by attorney Reeve & Lindeman, of Delphos. The petition sets forth that Wurster purchased of the Delphos agent of the company a round trip ticket to Cincinnati, on July 14, 1901, and that while returning to Delphos that evening, and occupying a seat in one of the passenger cars, the said Perry Crooks "did wrongfully, wilfully, negligently, forcibly and unlawfully make an assault upon the said plaintiff and then there beat, wound and ill treat the plaintiff and strike the plaintiff in the face twice with his fist and thereafter many times with a heavy bludgeon, on and about the said plaintiff's head and face, thereby loosening the plaintiff's teeth, injuring the sight of the plaintiff's left eye and injuring the plaintiff's brain so that he cannot stoop or bend over without getting dizzy, whereby the plaintiff became and was for a long time sick and sore and put to great suffering and anguish and was compelled to suffer and did suffer great expense in and about trying to cure himself; and is otherwise injured. That plaintiff fears and believes that by reason of said assault and the said blows so as aforesaid in-
